Research Progress on the use of Plant Allelopathy in Agriculture and the Physiological and Ecological Mechanisms of Allelopathy

by Cheng, F., and Cheng, Z. (2015). *Front. Plant Sci.* 6:1020. doi: 10.3389/fpls.2015.01020

There was a mistake in **Figure 1** Structures of some of the allelochemicals produced by plants. The structural formula of ferulic acid appeared twice. The repeated structural formula has been replaced by another plant allelochemical coumarin. The correct version of **Figure 1** appears below. The authors apologize for the mistake. This error does not change the article in any way.

AUTHOR CONTRIBUTIONS

All authors listed, have made substantial, direct and intellectual contribution to the work, and approved it for publication.

FUNDING

This research and the writing of this review were supported by a project of the National Natural Science Foundation of China (No. 31471865).

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
